***San Francisco Says: Too Much Alcohol on These Streets!***

***California Alcohol Policy Alliance rally & Call-To-Action to oppose State Senator Wiener giving away pedestrian rights in exchange for drinking on the sidewalks & cocktails-to-go.***

***Advocates Demand Public Health, Not Public Drinking, Oppose SB 314 & SB 389***

SAN FRANCISCO, CA (June 23, 2021) – Members of [California Alcohol Policy Alliance \(CAPA\)](#) will hold an opposition rally at the San Francisco district office of Senator Scott Wiener, author of [SB 314](#) – Expanded Footprint/Sidewalk Drinking, and principal coauthor of [SB 389](#) – Cocktails-to-go. Wiener’s bills will effectively privatize public spaces, compromise pedestrian right-of-way safety, promote drunk driving and encourage open alcohol containers on city streets.

As all California communities struggle to recover from COVID, those most disproportionately socio-economically impacted are black, brown and low-income. For them there is no relief in Wiener’s bills which prioritize business economic recovery. He is completely disregarding the unintended consequences of his misguided efforts: high costs of implementation, lack of infrastructure, and loss of overriding local control of cities to implement safe street and sidewalk initiatives for residents and business alike.

This is a social justice issue for low-income and communities of color, pedestrians and drivers already severely compromised by heavy policing, lack of resources and limited access to walkable and family friendly city streets. Promoting the need for non-union low paying jobs for communities of color as a means to justify alcohol deregulation measures co-opts social justice and equity to advance corporate profits. The real question is: who is funding these initiatives because it is not the labor unions and it is not the community.

**What:** Opposition Rally & Call-to-Action

**When:** Thursday June 24, 2020, 11 a.m. to noon

**Where:** Earl Warren State Office Building, 350 McAllister Avenue, San Francisco, CA 94102

**Who:**

- Bay Area Community Resources
- LGBTQ+ Caucus, CAPA
- Youth For Justice
- Disability Activists
- [Alcohol Justice](#)
- Senior Disability Action

**Why:**

- COVID regulatory relief measures were never meant to be made permanent or extended they were supposed to be temporary.
- According to an August 2020 CDC report, both African-Americans and Latinx were at dramatically greater risk of trauma or stress disorders related to COVID-19. This has manifested in increased suicidal ideation and the initiation of or increase in substance use, as compared to other ethnic or racial groups.
- Our communities are recovering from the most severe health crisis of our time, expansion of alcohol consumption should not be our priority.

- California currently suffers over 10,500 alcohol-related deaths, 165,000 alcohol-related hospitalizations and \$35 billion in related economic harm annually.
- Problems from excessive alcohol consumption annually cost approximately \$940 for every resident, or \$2.44 for every drink. (CDC)
- SB 314 would restrict use of what should be public space, it threatens to allow “party zones” of a type that have historically resulted in nuisance and license violations.
- Expanding drinking into public areas such as sidewalks poses a threat to seniors and people with disabilities and threatens ADA compliance.
- Many cities lack the capacity to implement expansion into public spaces, especially dense communities that rely heavily on public transportation and have narrow sidewalks and other infrastructure limitations.
- ABC will not engage in enforcement because most of these requirements are essentially non-enforceable by the department.
- There are already numerous methods for consumers to acquire alcohol in person at retail outlets or through delivery from retailers. Our communities do not need more access through cocktails-to-go.
- Cocktails-to-go create more barriers to monitoring underage alcohol consumption.

***With this event, CAPA is launching a public [CALL to ACTION](#) to demand that Senator Wiener, the Legislature, and the Governor acknowledge that excessive alcohol use is No. 3 on the list of preventable causes of death in California and stop any bills seeking to extend or expand COVID-19 regulatory rollbacks for economic relief.***

***Take Action here: : <https://bit.ly/3oFz1uo> or text PUBLICHEALTH to 313131 to tell legislators and the Governor to choose PUBLIC HEALTH over industry profits and STOP SB 314 and SB 389***

The [California Alcohol Policy Alliance \(CAPA\)](#) unites diverse organizations and communities in California to protect health and safety, and prevent alcohol-related harm through statewide action.
